Prevention is the only answer!

**AVAILABLE IN ALL LANGUAGES**

**The Self-Destructive Use of Drugs** 19"x31" uniquely displays the mind-body drug connection in one powerful graphic. Covers the 12 most commonly abused drug groups summarizing the characteristics of the use and abuse of legal and illegal substances. It also details the signs of intoxication, the withdrawal symptoms and the effects on both the foetus and the drug user.

**The Self-Destructive Use of Drugs** will go a very long way towards increasing substance abuse awareness, prevention and education throughout the world.

Experts worldwide agree that the most effective way to eradicate the harmful effects of the use and abuse of drugs and alcohol from the planet is to shift the focus to prevention measures through increased and enhanced early education and awareness programs.

## INTERNATIONALLY ACCLAIMED IN OVER 100 COUNTRIES

The Self-Destructive Use of Drugs is the world's leading educational and learning tool that represents a turning point in the war on drugs. It has proven itself to be very effective and will continue to help and educate millions of people from a prevention perspective.

«**The Self-Destructive Use of Drugs**», IDARF's signature product is a poster designed to help schools, health centers, businesses, and families communicate the message of drug-awareness. Its 19" x 31" size is manufactured with premium materials laminated on both sides for long durability. It conveys information about 12 drug groups, precisely summarizing the characteristics of the use and abuse of legal and illegal substances - ranging from alcohol and tobacco to marijuana, meth and ecstasy. This unique educational product is quick, simple and easy to learn wherever it is posted.

All the facts have been researched by medical researchers with immaculate precision, though without sacrificing the bird's-eye view needed to appeal to as wide an audience as possible. Vetted by government experts on substance abuse, «**The Self-Destructive Use of Drugs**» is a high-impact communication tool that offers factual, objective information and shows the «mind-body-drug connection» in one powerful graphic. It features a full-spectrum, vibrantly colored scheme that presents all facts with a color-coded key system, which clearly shows the interrelationship between the mind, body, and the drug group.

Displayed in homes, classrooms, the workplace and in public areas, **The Self-Destructive Use of Drugs** is a constant visual reminder driving home the destructive effects of substance abuse.

«**The Self-Destructive Use of Drugs**» posters have already reached thousands of people and communities world-wide. They have received public endorsements from some of the best-known organizations in the United States, Canada and abroad. This poster with its innovative design is currently receiving widespread praise because it is recognized by professionals, and ordinary citizens alike, as cost effective and a new and innovative way to convey the drug awareness and prevention message.
